EDUCATION
PROGRAM

BIM Contract Negotiation and Risk Allocation

MARCH 23, 2012

7:30 A.M. - 5:00 P.M.

AGC OF MICHIGAN

2323 N. LARCH

LANSING, MI

\$285 / MEMBER

\$342 / CIAP MEMBER

\$399 / NON-MEMBER

EARN YOUR
CERTIFICATE OF
MANAGEMENT
(CM-BIM)

This course provides the first 8-hours of instruction in a 40-hour program developed to help you obtain AGC's Certificate of Management - Building Information Modeling (CM-BIM). The program is the construction industry's first and only certificate program that teaches the practical application of the building information modeling process for commercial construction firms.

For more information please contact Viki Gotts (313.533.3509 or vgotts@agcmichigan.org)

AGC'S BIM EDUCATION PROGRAM - DEVELOPED IN CONJUNCTION WITH LEADING BIM PRACTITIONERS, TECHNOLOGY FIRMS AND EDUCATORS - IS DESIGNED TO PREPARE CONSTRUCTION PROFESSIONALS AT ALL EXPERIENCE LEVELS TO SUCCESSFULLY IMPLEMENT BIM ON A CONSTRUCTION PROJECT.

Building Information Modeling (BIM) is changing the way projects are constructed. Whether you are a prime contractor using BIM across an entire project or a subcontractor impacted by a specific BIM implementation, this emerging practice requires new mindsets and technological know-how in order to achieve significant improvements in efficiency and cost control.

BIM Contract Negotiation and Risk Allocation

BIM Contract Negotiation and Risk Allocation is a full-day course that examines BIM and contract terminology to determine best practices for integrating BIM use into project contracts. Hot-button issues such as standard of care, intellectual property rights, and insurance and surety bonding coverage are discussed to help participants become BIM champions within their organizations.

Who should attend?

Contractors, construction managers, design professionals, owners, suppliers, service providers and professionals seeking continuing education hours.

The Associated General Contractors of America (AGC) is a Registered Provider with The American Institute of Architects Continuing Education Systems. Credit earned on completion of this program will be reported to CES Records for AIA members. Certificates of completion for non-AIA members are available on request.

The U.S. Green Building Council (USGBC) developed Leadership in Energy and Environmental Design (LEED®) Green Building Rating Systems for different applications, such as New Construction and Major Renovations, Commercial Interiors, Core and Shell, and Homes. The USGBC Education Provider Program has approved the technical and instructional quality of this course.

Course Learning Objectives

Following this course, participants will be able to:

- Explain contract liability and standards of care related to BIM
- Negotiate BIM Addendum terms for BIM Execution Plan development
- Use BIM contract negotiation strategies to establish proactive collaborative BIM
- Identify intellectual property rights and licensing issues related to Model use
- Recognize BIM coverage limitations in existing insurance and bond products
- Devise fair risk allocation and management responsibility provisions on BIM projects

Instructors

Matt Cramer, President, Dee Cramer, Holly, MI

Matt is the President of Dee Cramer Inc., a 73 year old Sheet Metal/HVAC Contractor in Holly, Michigan. Matt has given over 50 presentations to audiences of Architects, Engineers, General Contractors and Subcontractors all over North America on BIM and its adoption. Dee Cramer was ranked as the 12th largest Sheet Metal Contractor in the U.S. by ENR Magazine (October 2009). Dee Cramer specializes in Industrial, Commercial and Industrial Projects. They do Design-Build, Design/Assist and Plan/Spec Work. They are an industry leader in 3D CAD and Building Information Modeling (BIM).

Thomas M. Keranen, Member, Clark-Hill

Thomas is a member in Clark Hill's Construction Practice Group. He is admitted to practice law in Michigan, Wisconsin and Florida, as well as in the U.S. District Court, Eastern and Western Districts of Michigan, and the U.S. Court of Federal Claims. Thomas is also a licensed professional engineer in Michigan (1976). His practice is concentrated on all aspects of construction industry legal matters, including claims involving acceleration, delay and disruption, surety bond and construction liens, federal procurement law, architect and engineering malpractice defense, and other related matters. He also serves as an arbitrator and mediator on the AAA's Construction Panel.

John M. Sier, Principal, Kitch Attorneys & Counselors

John heads Kitch's commercial litigation practice. With more than two decades of experience, he concentrates his practice on dispute avoidance and resolution of commercial, healthcare and construction contract issues. John is licensed to practice law in Michigan, Iowa, the U.S. District Courts of Eastern and Western Michigan, and the Sixth Circuit Court of Appeals. He is committed to helping businesses resolve their legal disputes without costly and time-consuming litigation, and has received certification as a mediator from the Institute of Continuing Legal Education.
