Percentage of Work Performed by your own Field Personnel (ex. 56%) *

%

Were there any fatalities on the project? *

- ○ Yes
- ○ No

Project Description

Describe why this project should receive an AGC Build Michigan Award *

0/500

Provide a description of the project that will be used for the narration in the Build Michigan Award video presentation of all nominated projects. *

0/200

Project Narrative

Please explain how this project meets each of the following criteria.

Meeting the challenge of a difficult job: *

Please identify the unique and difficult challenges this project posed and the steps your firm took to overcome those challenges. This could include how you overcame challenging site access, unexpected circumstances, use of new materials or any other challenges the team had to overcome to successfully complete the project. 500 words max
0/500

Excellence in Project Management: *

Please explain the steps your firm took to successfully manage the project to ensure an on-time and on-budget delivery. This could include using innovative approaches and project management techniques to better manage the complex construction process. 500 Words Max
0/500

Using innovative construction practices: *

Improvements to safety and quality: *

Max
0/500
Please explain the steps the team took to ensure the health and safety of every worker on the job site as well as the safety of any and all stakeholders and the general public, as well as the results of those steps. And explain what steps the project team took to inspire everyone involved to deliver the highest quality project possible. 500 Words Max
0/500

Excellence in client services: *

What steps did the project team take to provide the highest possible level of client service, including setting and meeting expectations, helping make the construction process as easy as possible for the project owners and all other groups with a stake in the project's success. Provide client references or testimonials if possible. 500 Words Max
0/500

Contractor's sensitivity to the environment and surroundings: *

Explain the steps the project team took to protect the nearby natural and built environments during the construction of the project. Identify any measures the team took that go beyond the minimum required. Explain why the team took those steps and provide any data demonstrating the success of those measures. 500 Words Max
0/500

Contractor's contribution to the community *

The judges want to know about the steps the project team took to contribute to the community during construction, not how the finished project will benefit the community once complete. What did the project team do to improve the local community during construction? For example, did the team make additional enhancements to the surrounding area as part of the project? Did they recruit and train local workers, partner with local school groups, and/or participate in philanthropy projects related to the project? 500 Words Max
0/500

3. File Uploads

Pictures tell a story, and images of construction and trades in action help tell that story in addition to completed project images. Although entries require at least one upload, applicants are encouraged to submit additional supplemental materials (up to 15 uploads in total) to enhance their entries. File uploads include, but are not limited to, photos (construction & finished), partnering charters, letters of recommendation, evaluation records, meeting minutes, press releases and media coverage. Each upload must not exceed 5MB as .doc, .pdf, .jpg, or .jpeg attachments. Please avoid zip files

4. Award Application Fee & Payment

An application fee of $250 is required per entry. AGC Michigan will invoice your company when the entry is received and will be payable either by check or credit card.

5. Submission

By typing your name below, you affirm and acknowledge the information provided is accurate. *
